Rev. Randolph Brings Up a Matter of Immense Import to Maryville Young People.

Rev. J. D. Randolph, pastor of the Buchanan Street Methodist church, delivered an excellent sermon Sunday night on "The Significance of the Rising Tide of Divorce." Rev. Randolph says that the ebb tide is soon to set in, as society will use greater precaution to prevent ill advised marriages, and with the complete establishment of the democratic idea of the family there will be less cause of friction between husband and wife. Rev. Randolph said in part as follows:

"And they said Moses suffered to write a bill of divorce and to put her away"—Mark 10:4.

The rising tide of divorce began to be noticeable in the United States just following the civil war. Before that time conditions had been normal. Divorce was spoken of in whispers. Divorced persons were so rare that they were pointed out on the streets objects of curiosity. About 1867 the first rippling waves of the rising tide were seen. Three hundred and twenty-eight thousand and seven hundred and sixteen divorces were granted by the courts in the next nineteen years. An average of thirty-eight for every hundred thousand of population. The next fourteen years following this average nearly doubled. By 1910 statistics recorded the fact that an average of one marriage in twelve was ended by divorce. Prof. Ross is authority for the statement that at the present time one marriage in ten is annulled by the courts. In some states the proportion is as high as one in four, and the end is not yet in sight. The tide has risen and is sweeping in, spreading ruin before it. Thinking people are startled to learn that twice as many marriages fail in the United States as in Switzerland, three times as many as in France, five times as many as in Germany, and that more divorces are granted in our country in one year than in all Europe, Canada and Australia combined. What is the significance of this weakening of the marriage bond as shown by the court records of the past seventeen years?

The Lie That Precedes Marriage.

There is a strong article in the *Debater* for March on "The Lie That Precedes Marriage." The author is a magistrate in one of the courts of New York City, and draws his conclusions from his experiences as a trial judge in hundreds of divorce suits. He takes the position that much of the unhappiness of marriage comes from the lies that are told and acted during courtship. "It is natural for youth to put its best foot foremost in the wooing season—to cater to the likes and dislikes of the loved ones. This is not hypocrisy, but the deference of love." "But," asks the judge, "what of the countless lovers who pretend to be what they are not, who make definite statements, not of what is to be, but what they falsely claim already exists? Young men lie deliberately to their sweethearts about their business achievements; imitate prosperity by dressing better and spending more money than they can afford. Young girls pretend accomplishments they do not possess; simulate an angelic disposition when they are shrews and assert liberality in matters upon which they are intol-

A. BINGAMAN DEAD LICENSE IS RAISED

OLD SETTLER PASSED AWAY MONDAY EVENING AT 6:30 O'CLOCK.

CAAME TO COUNTY IN 1871 SIDEWALK CAMPAIGN

Made Trip Around Cape Horn, South America, and Also Trip Across Isthmus of Panama.

Albert Bingaman, a pioneer settler of Nodaway county, died Monday evening at 6:30 o'clock, after a few weeks' illness, at his home on North Mulberry street. The funeral services will be held Thursday afternoon at 2:30 o'clock at the First Presbyterian church and will be conducted by Rev. S. D. Harkness, the pastor. Burial will be in Miriam cemetery.

Mr. Bingaman was born February 16, 1836, in Westmoreland county, Pennsylvania. At the age of 19 he left his native county and started for California, where gold had been discovered. He made the trip on a ship around Cape Horn, South America. After a short time in California he returned to Pennsylvania and made the trip back, coming by way of the Isthmus of Panama. He again returned to California and engaged in gold mining at Oroville. After several years in that country he made the trip back overland to Illinois, where he settled. On November 14, 1869, he was married to Mary Elizabeth Welcome. They came to Nodaway county in the spring of 1871 and settled on a farm, where they resided until they moved to Burlington, Kan., in 1908.

Mrs. Bingaman died July 12, 1911. Mr. Bingaman had been making his home in this city for several months with his daughter, Miss Nena Bingaman.

The deceased is survived by six children—Alvin Bingaman of Cordele, Okla.; Harry Bingaman of Greenfield, Ia.; Mrs. Fred Diss of this city, Mrs. A. L. Oakerson and Mrs. Jas Peter of Skidmore, and Miss Nena Bingaman of this city. One sister, Mrs. Kate Isham of Mendon, Ill., and one brother, Dallas Bingaman of Westmoreland, Pa., also survive.

TO MEET SATURDAY.

Another Meeting of the Farmers Phone Representatives—New Trunk Lines Badly Needed.

A meeting of the representatives of the People's Telephone Union of Maryville is called for Saturday afternoon, March 22, at 2 o'clock, in the courthouse, for the purpose of straightening out the business of the company and making arrangements for paying its obligations. The meeting is called by the board of directors.

The trunk lines between Maryville and Burlington Junction, Barnard and Skidmore are badly needed. On the one line between here and Burlington Junction, for the day of March 11, sixty-one calls were received from the Junction, Maryville put ninety calls to the Junction and refused eighty-nine calls. On the Skidmore line on March 13, thirty-seven calls were received by Maryville from that town, Maryville put forty-six calls to Skidmore and refused fifty-six calls. On March 13 on the Barnard line, Maryville received forty-seven calls from Barnard and put seventy-four calls to Barnard, and refused eighty-nine calls.

WAS MEXICAN WAR VETERAN.

Aged Father of John G. Grems of This City Died Monday Morning at His Home in Mantorville, Minn.

John G. Grems of this city received a message Monday from his sister, Mrs. Esther Curtis of Mantorville, Minn., telling of the death of their father, Daniel Grems, that morning. Mr. Grems was 96 years old and was a veteran of the Mexican war. He had never been ill, and death came to him gradually in long periods of sleep, that came on periodically for several days before he died. Mr. Grems was born near Rome, N. Y., in 1817. He went west and located near Mantorville in 1856. He was a farmer all his life. He is survived by two sons and two daughters, Mrs. Curtis of Mantorville; Mrs. Ella Snyder and Theodore Grems of Colorado City, Col., and John G. Grems of Maryville.

LAMSON AT HARMONY.

The Burlington Agricultural Department Agent Will Address People There Thursday Night.

Rev. C. R. Green, pastor of the Harmony church, east of the city, announces that on the coming Thursday night a meeting of the great agricultural interest will be held at that church, and members of the Commercial club will attend and be prepared to speak. County Superintendent Oakerson will be present to address this meeting.

An ordinance regulating location and conduct of auto garages and liveryies, warerooms, storage of gasoline and oils for automobiles was voted down by a vote of 4 to 2. It takes 5 votes for an ordinance to be adopted. The ordinance was to the effect that no auto garages, liveryies and warerooms be located in the district of the city between Buchanan and Market streets on Third, on Main from First to the alley between Fourth and Fifth streets, on Fourth street from the alley between Main and Buchanan to Market. The ordinance also contained a provision that all auto garages located within the fire limits have their own firewalls so as to prevent danger of escape of fire to any adjoining building. The members that voted for the adoption of the ordinance were C. D. Hooker, John Gray and Louis Gram expire at the coming election. The council also issued the regular election call and selected the judges.

The principal speaker of the evening will be Mr. J. B. Lamson, connected with the Burlington agricultural department, who will be there to present the special offer that is being made by the Burlington for the conservation of land resources. He will also talk about the advantages of a county advisor.

DEATH AT SKIDMORE.

David Marton Died Monday Night After a Two Years' Illness—Funeral Thursday.

Wm. David Marton, an old resident of Skidmore, died at midnight Monday night from a two years' illness of Bright's disease. Mr. Marton had been confined to his room nearly all winter and his death was not unexpected. The funeral services will be held in the M. E. church in Skidmore Thursday afternoon at 2 o'clock, conducted by the pastor, Rev. C. H. Sauceman. Burial in Masonic cemetery.

Mr. Marton is a native of Scott county, Illinois, where he was born July 22, 1845. He is survived by his wife and two children, Mrs. J. J. Jones of near Skidmore and Thomas Marton, living in Oklahoma, who will attend the funeral.

LAID 109 EGGS.

Ten R. C. White Leghorns Entered in Egg Laying Contest Have Good Record for February.

John S. Gross of this city, who has entered ten R. C. White Leghorns in the national egg-laying contest at Mountain Grove, Mo., under Secretary Quisenberry, has received word that during February 109 eggs were laid by his hens. One hen laid 22 eggs in the twenty-eight days that month. During the three and a half months the hens have been there they have laid sixty-one dozen eggs.

LAST NUMBER OF COURSE.

Ella Van Huff and Marie A. Jones to Give Concert on April 11 at First M. E. Church.

The last number of the Conservatory recital course will be given on Friday evening, April 11, at the First M. E. church by Ella Van Huff of Kansas City, a dramatic contralto, and Marie A. Jones of this city, who is studying under Mrs. Huff. Miss Jones now has a position in the choir of one of the largest Episcopal churches in that city.

A NEW GARAGE.

The Frost Building, on West Third Street, Leased by Grant Munn of Parnell.

Maryville is to have a new garage. Grant Munn of Parnell has leased the Frost building on West Third street, and in addition to keeping automobiles he will also sell them. He will be agent for the Carter and Lambert. The building is being remodeled and the auto entrance will be at the back of the building.

Special prices on pure neatsfoot oil at either of Denham's stores.

Denham makes the price on harness and buggies at both stores.

A COUNTY ADVISOR

THE QUESTION WILL NOT DOWN AND IS HERE TO STAY.

A PROGRESSIVE MOVE

All Farmers Are Talking About the Advisability of This Step Forward in Farming.

Editor Democrat-Forum: I am pleased to have H. C. Hiles' petition, signed by 400, presented to the county court. This is an indication that we are soon to have a farm advisor. I find that when men begin to oppose a good thing they soon become better informed and are the best boosters the other way.

Years ago such men opposed the introduction of improved machinery, and have turned up at the introduction of all our modern conveniences which make life more pleasant and profitable, yet they are easily convinced, and soon all moves smoothly again.

When consolidated rural schools were first talked of the writer was very much opposed to the idea. He could not bear the thought of sending the little ones so far from papa and mamma, so he started out to find some argument to refute the claims of the consolidator, which very soon convinced him that the consolidated school was just it, and now for the past three years the consolidated school has not had a more ardent supporter than the writer.

In regard to having a county advisor, this is a question that cannot be judged by the past. The man that is on his feet today has been placed there by the pentup fertility in the soil which has been accumulating for ages, that muscle might hold the fort till science shall reign supreme.

Are we not going to consider the great multitude of young people that are coming on and will be confronted with a worn out soil held at an unreasonable price? Are we not to consider the newcomer to our state, who at present has no one to counsel with but the loafer?

Well do I remember eighteen years ago when the writer came into the state with the firm intention of making good to the state of Missouri, and with no help but a wife and three little girls. I knew nothing of the new surroundings, and there was no one to apply to for information. The consequence was I had to toil on and learn all by experience. I now consider that five years were passed before I had a fair understanding and began to lay by for the rainy day. However, the conditions were better then than now, the soil being better and the price not unreasonable. I know we must consider man has a right to use his farm as he sees fit, therefore the advisor is to attend only where called, as I understand he has more calls than he can attend to. It is an old saying, yet true, that a chain is no stronger than its weakest link. So if we want to be prosperous and known as a progressive farm community, we must help up the man that persists in farming as dad did. To be sure there is plenty of agricultural literature that can be had for the asking, but the man referred to does not read.

It seems strange, yet 'tis true, that removing big crops from the land leaves the soil in better condition than to hog it over, as we say.

Looking at this question from a religious standpoint, has a man a right to allow his soil to depreciate when we now have in a nearby city 7,500 babies crying for milk?

Every interest known but the farmer's maintain a lobby before our legislative bodies. Now, our farm advisors all working in harmony under one leadership would be in fine shape to see that our congresses give us a fair deal. If I thought it the way to do I think Mr. Hiles' petition could be easily doubled in favor of a farm advisor.

It is not my intention at present to enumerate the advantages of a farm advisor, but to let the people know that the question is not dead, but will come up again in a proper way. The public will soon demand better roads, schools, and rural meetings, and, above all, a public guardian of our rights and natural resources.

Respectfully,
A ROSS HILLS.

MONDAY OF PASSION WEEK.

Rev. Cox Spoke on That Subject Monday Night at First M. E. Church.

Monday night's service at the
Methodist Episcopal church was well
attended and impressive. The music
by the choir was enjoyable, and Miss
Marie Gayle Jackson's singing was
very effective.

The sermon study dealt with Monday
of Passion Week. Rev. Gilbert S. Cox,
the pastor of the church, in part said:

"Jesus returns early from Bethany.
On the way into the city He sees a fig
tree which gave promise of bearing
fruit, approaches it, but finding nothing
but leaves, pronounces a judgment
upon it and on the next day His dis-
ciples find it withered. This in a strik-
ing way gives warning to the Pharisees
of their impending doom on account
of pretensions of righteousness and
lack of fruit of the Spirit. This is
ever the test of a religious system, of
the church, and individual. 'By their
fruits shall ye know them.'

"He goes into the city, empties the
temple of its den of thieves, prophetic
of His impatience with sin and His
ability to cleanse a greater temple, the
temple of the Holy Spirit, which His
Word teaches us we are. After sin is
driven out, helpfulness comes in. He
next heals the sick who throng about
Him. When evening comes He again
goes out of the city."

The subject tonight is "A Day of
Warning." Anthem, "How Long Will
Thou Forget Me," Johnson. The Normal
Male Quartet will sing "Ye Shall
Dwell in the Land," Stainer.

Commercial Club Banquet.

The Commercial club will hold a
banquet Tuesday evening at the First
Christian church at 6:30 o'clock. The
Ladies' Aid society of the church will
serve the banquet.

NOTES OF THE NORMAL.

Rev. Claude J. Miller of the First
Christian church addressed the Young
Women's Christian association Tues-
day morning. His subject was "David
Livingston."

The date of the commencement ex-
ercises has been set for May 21. A
speaker for the occasion will be se-
lected later by the members of the
club.

Thirteen schools have already signi-
fied their intention to take part in the
fourth annual track meet and oratorical
contest, which will take place here

April 25-26. Judging from the num-
bers of inquiries that have been re-
ceived by Corresponding Secretary V.

I. Moore concerning the affair the 1913
occasion will outdo all former ones.

The enrollment for the spring term
has reached 217, and the end of the
quarter will likely find the regis-
tration past the 225 mark.

The regular pupils' recital at the Conservatory hall has been postponed from this evening until next Monday evening at 7:30 o'clock on account of the meetings at the First M. E. church.

Had a Picnic Saturday.

Miss Ada Albert, superintendent of the primary department of the First Baptist church Sunday school, and her corps of teachers, gave a picnic party Saturday afternoon in the church parlors to the sixty-eight little people who comprise it. Everybody had a happy time.

Party for Little Granddaughter.

Mrs. Neal Hillard of South Mattie street, gave a birthday party Monday evening, March 17, in honor of her 2-year-old granddaughter, Elizabeth Hillard, who is the daughter of Mr. and Mrs. Albert Hillard. The little girl was well remembered with presents from her friends who are pupils of the Washington and Jefferson schools. She received seventeen presents, consisting mostly of dresses, and several pretty post cards. After several games had been played the hostess served her guests with two nice large cakes she had made for them and various kinds of candies. The guests took their departure at 8 o'clock, having made the little honor guest very happy. Those present were Mattie, Matie, Lola and Irene Sharp, Thelma and Helen Cozad, Mildred Hudson, Gladys Culverson, Marie Kissinger, Neva Glasgow, Earl and Vora Elsner, Cecil and Arzetta Spore, Verna Kelley, Nora Reynolds, Harry Reynolds, Myrtle Frost, Muriel Fite.

Light Touch

THE extremely light action of the Monarch

Typewriter endears it to all operators who use it.

The typist who takes pride in her position finds great satisfaction in being able to turn out as much work, and as good work, per hour, toward the end of the working day as during the morning. Other conditions being the same, she can always do this on a Monarch. There is

"No Three O'Clock Fatigue"

for users of this machine. The mechanical reason for the Monarch light touch is found in the action of the Monarch type bar, an exclusive and patented feature which gives this remarkably light touch.

We would remind the business man that Monarch light touch means more work and better work, because less physical strength is expended by the operator. Therefore, cost per folio is reduced, making the Monarch a business economy.

Maryville Young Man at State University Has Second Recognition From Writers' Club.

Charles Kane of Maryville, who is distinguishing himself regularly this year at the state university, has a contribution in the Writers' Club magazine section of the Sunday University Missourian, the journalist students' paper at the university.

Mr. Kane's story is entitled "Strong Language," and it is—the story of "A Pirate that Roamed the Deep and Waded to His Neck in Gore." The story is made up of "nautical verses by a lubberly landman," and is so graphically told in unusual words that you read every word, whether you like pirates or not, for you want to be sure that the ugly beast got all that he deserved. And he did. It's a well told tale.

McAdoo Refuses to See Applicants.

The first sequel to President Wilson's determination to refer office seekers to members of his cabinet came when Secretary McAdoo announced that he was compelled to decline to receive personal applications for office.

"I have tried it for ten days," the secretary said, "and I find that it leaves me no chance to attend to important house business and, besides, is absolutely futile. None but a superman could remember at the end of a day everyone who has poured a story into his ears.

"While I fully appreciate and sympathize with the very natural and proper desire of those who are seeking places, nevertheless it should be made clear to them that nothing is to be gained by haste. Ample time is going to be taken to consider all applications. They should be made in writing. They will be filed and receive much more careful consideration than if presented in person."

EXTRA SESSION IS CALLED

Congress Will Meet April 7 to Transact Public Business.

Washington, March 18.—President Wilson issued the usual proclamation convening congress in extra session at noon on April 7. The president's proclamation was brief and followed form closely. It stated merely that "Whereas, public interests require congress would be convened in extra session by order of the executive."

The absence of any specific reason for the calling of the extra session is explained by the fact that Mr. Wilson's statement immediately after his election declared that he would call an extra session to revise the tariff.

President Wilson plans to point out specifically his wishes for the extra session in his first message, in preparation. This, it is known from talks the president has had with members of congress, will outline the administration's idea of how the tariff should be revised and just what schedules should be taken up.

JOB FOR JOHN B. MOORE

Professor Will Be Appointed Counselor of State Department—He is to Be Acting Secretary in Bryan's Absence.

McAdoo Bars Pie Hunters

Washington, March 18.—The United States senate ended its extraordinary session, adjourning sine die, to reassemble April 7, when the extra session of congress convenes. All civil nominations of President Wilson were confirmed, except that of Charles P. Neill to be commissioner of labor statistics. This appointment is still in committee.

John Bassett Moore, professor of international law at Columbia university and a recognized authority on that subject, is to be appointed counselor to the department of state.

Mr. Moore will succeed Chandler P. Anderson, who has filled that position since the death of Henry M. Hoyt, for whom the office was created.

This will be the third time Mr. Moore has entered the service of the state department, where he has at various times filled the position of law clerk, the third assistant secretary and assistant secretary under both Democratic and Republican administrations.

Certain considerations are considered to be attached to Professor Moore's acceptance of the post, such as an understanding that he will be designated as acting secretary in the absence of Secretary Bryan and also that an effort will be made to have congress increase the salary of the position, now fixed at \$7,500.

Agricultural Commission Appointed.

The president appointed Senators Fletcher of Florida and Gore of Oklahoma, Representative Moss of Indiana, Colonel Harvey Jordan of Georgia, Dr. John Lee Coulter of Minnesota, Dr. Kenyon L. Butterfield and Clarence J. Owen of Maryland members of the commission authorized in the last agricultural appropriation bill to co-operate with the American commission assembled under the auspices of the Southern Commercial congress to study in European countries co-operative rural credit unions and similar organizations devoted to the betterment of rural conditions. The same men also have been designated delegates to the general assembly of the International Institute of Agriculture in Rome next August.

Boulder, Colo., March 18.—A fresh strike in northern Colorado coal fields began when 1,000 miners employed by the American Fuel company in Boulder county failed to return to work following meetings of local branches of the United Mine Workers of America Sunday, at which a strike was called.

LIES OF COURTSHIP

UNHAPPY MARRIAGES RESULT WHEN HALO OF PERFECTION DIES

SHOULD ACT ON SQUARE

Rev. Randolph Brings Up a Matter of Immense Import to Maryville Young People.

Rev. J. D. Randolph, pastor of the Buchanan Street Methodist church, delivered an excellent sermon Sunday night on "The Significance of the Rising Tide of Divorce." Rev. Randolph says that the ebb tide is soon to set in, as society will use greater precaution to prevent ill advised marriages, and with the complete establishment of the democratic idea of the family there will be less cause of friction between husband and wife. Rev. Randolph said in part as follows:

"And they said Moses suffered to write a bill of divorce and to put her away"—Mark 10:4.

The rising tide of divorce began to be noticeable in the United States just following the civil war.

Before that time conditions had been normal. Divorce was spoken of in whispers. Divorced persons were so rare that they were pointed out on the streets objects of curiosity. About 1867 the first rippling waves of the rising tide were seen. Three hundred and twenty-eight thousand and seven hundred and sixteen divorces were granted by the courts in the next nineteen years. An average of thirty-eight for every hundred thousand of population. The next fourteen years following this average nearly doubled. By 1910 statistics recorded the fact that an average of one marriage in twelve was ended by divorce. Prof. Ross is authority for the statement that at the present time one marriage in ten is annulled by the courts. In some states the proportion is as high as one in four, and the end is not yet in sight. The tide has risen and is sweeping in, spreading ruin before it. Thinking people are startled to learn that twice as many marriages fail in the United States as in Switzerland, three times as many as in France, five times as many as in Germany, and that more divorces are granted in our country in one year than in all Europe, Canada and Australia combined. What is the significance of this weakening of the marriage bond as shown by the court records of the past seven years?

The Lie That Precedes Marriage.

There is a strong article in the *Democrat* for March on "The Lie That Precedes Marriage." The author is a magistrate in one of the courts of New York City, and draws his conclusions from his experiences as a trial judge in hundreds of divorce suits. He takes the position that much of the unhappiness of marriage comes from the lies that are told and acted during courtship. "It is natural for youth to put its best foot foremost in the wooing season—to cater to the likes and dislikes of the loved ones. This is not hypocrisy, but the deference of love." "But," asks the judge, "what of the countless lovers who pretend to be what they are not, who make definite statements, not of what is to be, but what they falsely claim already exists? Young men he deliberately fo their sweethearts about their business achievements; imitate prosperity by dressing better and spending more money than they can afford. Young girls pretend accomplishments they do not possess; simulate an angelic disposition when they are shrews and assert liberality in matters upon which they are intol-

erant." There is no doubt but what this magistrate's position is well taken. Lies before marriage are the sowing of dragon teeth. They result in bitter disillusionment and often the death of love, but they do not explain the rising tide of divorce. Young people are no more given to lies before marriage now than at any other time in the world's history.

Not a Matter of Legislation.

It is not correct to suppose that the cause of increasing divorce is primarily a matter of lax laws and easily secured decrees of separation. Dr. Dike, the secretary of the National League for the Protection of the Home,

is authority for the statement that "the direct influence of lax laws in producing the great increase of divorce in the last forty years is relatively small." His reasoning must be correct, for while the tendency of legislation for the past twenty years has been in the direction of greater stringency, divorce has constantly increased. Legislation has done little if anything to check the tide. Happy couples do not sue for divorce, however easily a decree may be secured from the courts. We must look deeper than the surface if we are to find the cause of the trouble. We must distinguish between symptom and cause.

Women No Longer Property.

The real cause of the rising tide of divorce is the fact that in America at least, women are no longer property. Marriage by courtship is of comparatively recent origin. In a primitive stage of the evolution of marriage wives were stolen—carried away by force. Later they were bought or traded for. Even now when the older forms of the marriage ceremony are used, women are given to their husbands "to have and to hold," the same legal formula which is used in conveying a piece of land, and the wife is sworn to obey her husband. It is only in recent years, even in America that a wife could own property separately from her husband. Slowly but surely the status of women under the law has risen. Their freedom will be completed when they are given the ballot. An even which in our country cannot be long delayed.

Not only have women been given greater freedom under the law but the ways in which a woman could earn a living for herself have been greatly multiplied. When Harriet Martineau visited the United States in 1849 she found only seven employments open to women. Only fifty years later Carroll Wright was able to find only nine that were not open to women. Today women are found engaged in all occupations except such as are beyond their physical strength.

Women's intellectual freedom has kept pace with her widening opportunities in other directions. More girls than boys receive high school diplomas. Half as many men as women are in college. Some of the greatest magazines are published exclusively for women. The rising tide of divorce then is an evidence that in our own time the old is clashing with the new—the old despotic family of Roman origin, based on the authority of the husband and the merging of the wife's legal personality into his, and the democratic family of German origin, based on the consenting and harmonious wills of two equals. The alarming increase of divorce is a sign of transition.

The Ebb Tide Soon to Set In.

It is calculated that in eighty years one marriage in two will end in divorce. "No one who understands the social role of the family in a healthy society anticipates any such disastrous outcome." With the complete establishment of the democratic ideal of the family there will be less cause of friction between husband and wife. The double standard of morality for men and women will be abolished. Society will use greater precaution to prevent ill advised marriages. The purity of ignorance will give place to the higher purity of knowledge. What God has truly joined together, man will not put asunder.

A. BINGAMAN DEAD LICENSE IS RAISED

OLD SETTLER PASSED AWAY MONDAY EVENING AT 6:30 O'CLOCK.

CAME TO COUNTY IN 1871

Made Trip Around Cape Horn, South America, and Also Trip Across Isthmus of Panama.

Albert Bingaman, a pioneer settler of Nodaway county, died Monday evening at 6:30 o'clock, after a few weeks' illness, at his home on North Mulberry street. The funeral services will be held Thursday afternoon at 2:30 o'clock at the First Presbyterian church and will be conducted by Rev. S. D. Harkness, the pastor. Burial will be in Miriam cemetery.

Mr. Bingaman was born February 16, 1836, in Westmoreland county, Pennsylvania. At the age of 19 he left his native county and started for California, where gold had been discovered. He made the trip on a ship around Cape Horn, South America. After a short time in California he returned to Pennsylvania and made the trip back, coming by way of the Isthmus of Panama. He again returned to California and engaged in gold mining at Oroville. After several years in that country he made the trip back overland to Illinois, where he settled. On November 14, 1869, he was married to Mary Elizabeth Welcome. They came to Nodaway county in the spring of 1871 and settled on a farm, where they resided until they moved to Burlington, Kan., in 1908.

Mrs. Bingaman died July 12, 1911. Mr. Bingaman had been making his home in this city for several months with his daughter, Miss Nena Bingaman. The deceased is survived by six children—Alvin Bingaman of Cordell, Okla.; Harry Bingaman of Greenfield, Ia.; Mrs. Fred Diss of this city, Mrs. A. L. Oakerson and Mrs. Jas Peter of Skidmore, and Miss Nena Bingaman of this city. One sister, Mrs. Kate Isham of Mendon, Ill., and one brother, Dallas Bingaman of Westmont, Pa., also survive.

TO MEET SATURDAY.

Another Meeting of the Farmers Phone Representatives—New Trunk Lines Badly Needed.

A meeting of the representatives of the People's Telephone Union of Maryville is called for Saturday afternoon, March 22, at 2 o'clock, in the court house, for the purpose of straightening out the business of the company and making arrangements for paying its obligations. The meeting is called by the board of directors.

The trunk lines between Maryville and Burlington Junction, Barnard and Skidmore are badly needed. On the one line between here and Burlington Junction, for the day of March 11, sixty-one calls were received from the Junction, Maryville put ninety calls to the Junction and refused eighty-nine calls.

SIDEWALK CAMPAIGN

Started by Council, Fifty Sidewalks Being Condemned—Other Matters Up at Meeting.

At an adjourned city council meeting, held Monday night in the city's new quarters in the Baker building, the council issued a call to the voters of the four wards to meet in their respective wards on Friday evening, March 28, at 7:30 o'clock, for the purpose of nominating candidates for aldermen, there being one alderman to be elected from each ward at the city election to be held Tuesday, April 1. The First ward is to meet at the new city hall, the Second ward at Robey's garage, the Third ward at Gray's feed yard, and the Fourth ward at the Star livery barn. The terms of Henry Foster, C. D. Hooker, John Gray and Louis Gram expire at the coming election. The council also issued the regular election call and selected the judges.

An ordinance regulating location and conduct of auto garages and livery, warerooms, storage of gasoline and oils for automobiles was voted down by a vote of 4 to 2. It takes 5 votes for an ordinance to be adopted. The ordinance was to the effect that no auto garages, livery and warerooms be located in the district of the city between Buchanan and Market streets on Third, on Main from First to the alley between Fourth and Fifth streets, on Fourth street from the alley between Main and Buchanan to Market. The ordinance also contained a provision that all auto garages located within the fire limits have their own firewalls so as to prevent danger of escape of fire to any adjoining building. The members that voted for the adoption of the ordinance were C. D. Hooker, John Gray, Charles McNeal and Louis Gram. Those opposed were Frank Ewing and W. Moyer. Henry Foster, who was present at the meeting, voted for the ordinance, but his vote was not counted as he has moved from the First ward, which ward he was elected from.

An ordinance that carried at the meeting was to license pool and billiard halls, bowling alleys, shooting galleries and skating rinks. Licenses to bowling alleys will be granted for a period of three months only instead of six, and shooting galleries one month's license. The pool and billiard halls and skating rinks will be for a period of one year. The license tax as adopted follows: For each billiard table a year \$20; each pool table a year \$10; bowling alley three months, \$12.50; for three alleys and for each additional alley per month, \$5; skating rink, \$100 a year; shooting gallery, \$10 for first month and \$5 for each month thereafter.

Another ordinance that was adopted Monday night was to amend ordinance No. 558 by adding kerosene, coal oil, to ordinance about petroleum, gasoline and benzine. The provisions of the ordinance are that not over five gallons of gasoline, coal oil, benzine, petroleum can be kept within the fire limits, except when contained in a metal container. Not over three barrels can be stored in any building within the fire limits except in a metal container, which is to be underground.

Other ordinances passed at the meeting were condemning about fifty sidewalks in the city and ordering the property owners to construct new ones. Unless this is done the city will have the walks built and charged against the property owners. The council intends to make a vigorous campaign against sidewalks, and expect within a short time not to have a board sidewalk in town.

The council instructed Mayor Robey to enter into a contract for tearing down the second story of the old city hall building on North Market street. The first story of the building will still remain and will be used by the fire department for their wagons and team and also as a city jail. The building is unsafe, and it is thought by taking off the second story it will make it safer for the fire team and city jail.

A discussion of the vehicle tax ordinance was had. There is some talk of repealing this ordinance.

Yeo Bros. were granted a pool license and also a bowling alley license.

The next meeting of the council will be held on Friday evening, March 21

WAS MEXICAN WAR VETERAN.

Aged Father of John G. Grems of This City Died Monday Morning at His Home in Mantorville, Minn.

John G. Grems of this city received a message Monday from his sister, Mrs. Esther Curtis of Mantorville, Minn., telling of the death of their father, Daniel Grems, that morning. Mr. Grems was 96 years old and was a veteran of the Mexican war. He had never been ill, and death came to him gradually in long periods of sleep, that came on periodically for several days before he died. Mr. Grems was born near Rome, N. Y., in 1817. He went west and located near Mantorville in 1856. He was a farmer all his life. He is survived by two sons and two daughters, Mrs. Curtis of Mantorville; Mrs. Ella Snyder and Theodore Grems of Colorado City, Col., and John G. Grems of Maryville.

A COUNTY ADVISOR

THE QUESTION WILL NOT DOWN AND IS HERE TO STAY.

A PROGRESSIVE MOVE

All Farmers Are Talking About the Advisability of This Step Forward in Farming.

Editor Democrat-Forum: I am pleased to have H. C. Hiles' petition, signed by 400, presented to the county court. This is an indication that we are soon to have a farm advisor. I find that when men begin to oppose a good thing they soon become better informed and are the best boosters of the other way.

Years ago such men opposed the introduction of improved machinery, and have turned up at the introduction of all our modern conveniences which make life more pleasant and profitable, yet they are easily convinced, and soon all moves smoothly again.

When consolidated rural schools were first talked of the writer was very much opposed to the idea. He could not bear the thought of sending the little ones so far from papa and mamma, so he started out to find some argument to refute the claims of the consolidation, which very soon convinced him that the consolidated school was just it, and now for the past three years the consolidated school has not had a more ardent supporter than the writer.

In regard to having a county advisor, this is a question that cannot be judged

MONDAY OF PASSION WEEK.

Rev. COX Spoke on That Subject Monday Night at First M. E. Church.

Monday night's service at the Methodist Episcopal church was well attended and impressive. The music by the choir was enjoyable, and Miss Marie Gayle Jackson's singing was very effective.

The sermon study dealt with Monday of Passion Week. Rev. Gilbert S. Cox the pastor of the church, in part said:

"Jesus returns early from Bethany. On the way into the city He sees a fig tree which gave promise of bearing fruit, approaches it, but finding nothing but leaves, pronounces a judgment upon it and on the next day His disciples find it withered. This in a striking way gives warning to the Pharisees of their impending doom on account of pretensions of righteousness and lack of fruit of the Spirit. This is ever the test of a religious system, of the church, and individual. 'By their fruits shall ye know them.'

"He goes into the city, empties the temple of its den of thieves, prophetic of His impatience with sin and His ability to cleanse a greater temple, the temple of the Holy Spirit, which His Word teaches us we are. After sin is driven out, helpfulness comes in. He next heals the sick who throng about Him. When evening comes He again goes out of the city."

The subject tonight is "A Day of Warning." Anthem, "How Long Wilt Thou Forget Me," Johnson. The Normal Male Quartet will sing "Ye Shall Dwell in the Land," Stainer.

M. I. Circle Meeting.

The M. I. Circle will meet Tuesday afternoon with Mrs. Walter Mutz, instead of with Mrs. T. K. Wray, as announced in the year book.

Recital Postponed.

The regular pupils' recital at the Conservatory hall has been postponed from this evening until next Monday evening at 7:30 o'clock on account of the meetings at the First M. E. church.

Had a Picnic Saturday.

Miss Ada Albert, superintendent of the primary department of the First Baptist church Sunday school, and her corps of teachers, gave a picnic party Saturday afternoon in the church parlors to the sixty-eight little people who comprise it. Everybody had a happy time.

Party for Little Granddaughter.

Mrs. Neal Hillard of South Main street, gave a birthday party Monday evening, March 17, in honor of her 2-year-old granddaughter, Elizabeth Hillard, who is the daughter of Mr. and Mrs. Albert Hillard. The little girl was well remembered with presents from her friends who are pupils of the Washington and Jefferson schools. She received seventeen presents, consisting mostly of dresses, and several pretty post cards. After several games had been played the hostess served her guests with two nice large cakes she had made for them and various kinds of candies. The guests took their departure at 8 o'clock, having made the little honor guest very happy. Those present were Mattie, Lola and Irene Sharp, Thelma and Helen Cozad, Mildred Hudson, Gladys Culverson, Marie Kissinger, Neva Glasgow, Earl and Vera Eisenman, Cecil and Arzetta Spore, Verna Kelley, Nora Reynolds, Harry Reynolds, Myrtle Frost, Muriel Flite.

The Anniversary Luncheon.

Unique and of more than usual enjoyment was the entertainment of the Twentieth Century club Monday evening at 5:30 o'clock, at the Elks club house, given to observe its anniversary. The club women had been keenly disappointed because Mrs. Henry Ess of Kansas City could not be with them, but the committee had a very pleasant surprise waiting for them on their arrival, when Mrs. W. K. James of St. Joseph, a club woman of national reputation, was presented to them. Fifty guests were greeted at the door by Miss Mae Orear and Miss Laura Barmann. Passing into the tea rooms they were received by Miss Jessie Parcer, who introduced them to Mrs. James. After a social time, when all were made personally acquainted with the guest of the day, all went to the lodge room, where a delightful chafing dish luncheon was in readiness. The committee in charge of this part of the affair had certainly done its work well, and was composed of Mrs. W. A. Rickenbrode, Mrs. Ferdinand Townsend, Mrs. S. G. Gillam, Miss Rena Sturm and Miss Brownie Tool. Assisting them were Mrs. V. I. Moore, Miss Clara Sturm and Miss Marie Brink. For once the club colors, lavender and white, were completely routed, and every table was in green and white, to honor St. Patrick. Each table was lighted by white candles in shamrock trimmed candle shades. The menu was delicious and consisted of garnished chicken on tea rusk, peas in timbales, sandwiches in the form of a shamrock leaf, pickles, ices, coffee and mints, and all in green and white. After luncheon Mrs. James was introduced for an informal talk. The trend of it was "a club woman's talk to club women," inviting them to better things, and advising them to take full notice that the real basis and power of club work lies in federation, national, state and city. Mrs. James then spoke on what she calls her hobby, the raising of the educational fund of \$100,000 that was first suggested by Mrs. Sarah Platt Decker, who died at the biennial convention in San Francisco last June, and which will be made a memorial to her memory. The money is to be raised by the individual contributions of club women. Mrs. James brought out facts that are undeniable: That great good is being accomplished by our club women in every department of civic life in the country; that they are completely past the stage where their study was merely for self-culture; that they are reaching out to

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a common disease requires a long and protracted treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the patient's disease and giving the patient strength and assistance in doing its work. The proprietors have no much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Monarch Light Touch

THE extremely light action of the Monarch

Typewriter endears it to all operators who use it.

The typist who takes pride in her position finds great satisfaction in being able to turn out as much work, and as good work, per hour, toward the end of the working day as during the morning. Other conditions being the same, she can always do this on a Monarch. There is

"No Three O'Clock Fatigue"

for users of this machine. The mechanical reason for the Monarch light touch is found in the action of the Monarch type bar, an exclusive and patented feature which gives this remarkably light touch.

We would remind the business man that Monarch light touch means more work and better work, because less physical strength is expended by the operator. Therefore, cost per folio is reduced, making the Monarch a business economy.

SEND FOR MONARCH LITERATURE

Then try the Monarch, and be convinced that Monarch merit rests in the machine itself, not merely in what we tell you about it.

It is on this line that your name counts most.

UNTIL a bank book bears your name, you are not advancing or bettering your situation. The young man or woman, of large or small income, is merely treading water until he or she starts to save. There is nothing more gratifying than the reflection that you have a comfortable balance at the bank. The very knowledge that you have the money in reserve to satisfy this desire or that, makes self-denial easy and derives more pleasure than wasteful indulgence.

YOU SHOULD WALK OUT OF THIS BANK THE VERY NEXT PAY DAY WITH A BANK BOOK OF OUR OWN.

CHARLES KANE AGAIN.

Maryville Young Man at State University Has Second Recognition From Writers' Club.

Charles Kane of Maryville, who is distinguishing himself regularly this year at the state university, has a contribution in the Writers' Club magazine section of the Sunday University Missourian, the journalist students' paper at the university.

Mr. Kane's story is entitled "Strong Language," and it is—the story of "A Pirate that Roamed the Deep and Waded to His Neck in Gore." The story is made up of "nautical verses by a lubberly landman," and is so graphically told in unusual words that you read every word, whether you like pirates or not, for you want to be sure that the ugly beast got all that he deserved. And he did. It's a well told tale.

Returned From Indiana.

Mrs. C. E. Jones and her brother, Alton Morgan, returned Sunday morning from Indianapolis, Ind., where they were called by the death of their mother Mrs. Rachel Morgan, who died two weeks ago. Mrs. Morgan was 99 years old December 22 last, and until within a few days of her death was as active physically and mentally as she had ever been. She visited in Maryville last summer, and it was the wonder of everyone that a woman of so many years could possess the happiness, charm and vivacity of youth and the keen interest in life that she did.

Will Visit Tribes on Amazon.

Philadelphia, March 18.—What is believed to be the most ambitious expedition to the Amazon river ever undertaken will start from here tomorrow on the steam yacht Pennsylvania, to be gone three years. The expedition is being sent out by the University of Pennsylvania museum. The expedition will study the languages, manners, customs, arts, crafts and history of the many races of Indians, concerning whom very little is known.

Bombs Kill Three Mail Clerks.

Calcutta, March 18.—Four bombs intended to kill the editors of the leading papers here, exploded in the post office while the packages containing them were being sorted by mail clerks. Three clerks were fatally injured. The deadly missiles were addressed to the editors of the English Statesman, Capital and Empire.

Colorado Miners' Strike Spreads.

Boulder, Colo., March 18.—A fresh strike in northern Colorado coal fields began when 1,000 miners employed by the American Fuel company in Boulder county failed to return to work following meetings of local branches of the United Mine Workers of America Sunday, at which a strike was called.

"I have tried it for ten days," the secretary said, "and I find that it leaves me no chance to attend to important house business and, besides, is absolutely futile. None but a superman could remember at the end of a day everyone who has poured a story into his ears.

"While I fully appreciate and sympathize with the very natural and proper desire of those who are seeking places, nevertheless it should be made clear to them that nothing is to be gained by haste. Ample time is going to be taken to consider all applications. They should be made in writing. They will be filed and receive much more careful consideration than if presented in person."

EXTRA SESSION IS CALLED.

Congress Will Meet April 7 to Transact Public Business.

Washington, March 18.—President Wilson issued the usual proclamation convening congress in extra session at noon on April 7. The president's pronouncement was brief and followed form closely. It stated merely that "Whereas, public interests require" congress would be convened in extra session by order of the executive.

The absence of any specific reason for the calling of the extra session is explained by the fact that Mr. Wilson's statement immediately after his election declared that he would call an extra session to revise the tariff.

President Wilson plans to point out specifically his wishes for the extra session in his first message, in preparation. This, it is known from talks the president has had with members of congress, will outline the administration's idea of how the tariff should be revised and just what schedules should be taken up.

Kansas Guaranty Law Declared Valid.

Washington, March 18.—The supreme court formally upheld as constitutional the Kansas bank guaranty deposit law of 1909. The act was held constitutional about two years ago, after objection by state banks, but the national banks of Kansas persisted in the fight against the law.

Harrison Magnates Must Begin Over.

New York, March 18.—Robert S. Lovett, chairman of the Union Pacific railway, said that he and his associates would try to work out a new plan of dissolution of the Union Pacific and Southern Pacific to comply with the decision of the supreme court.

NEILL'S NAME IN COMMITTEE

All Wilson's Nominations Save One Are Confirmed.

JOB FOR JOHN B. MOORE.

Professor Will Be Appointed Counselor of State Department—He is to Be Acting Secretary in Bryan's Absence. McAdoo Bars Pie Hunters

Washington, March 18.—The United States senate ended its extraordinary session, adjourning sine die, to reassemble April 7, when the extra session of congress convenes. All civil nominations of President Wilson were confirmed, except that of Charles P. Neill to be commissioner of labor statistics. This appointment is still in committee.

John Bassett Moore, professor of international law at Columbia university and a recognized authority on that subject, is to be appointed counselor to the department of state.

Mr. Moore will succeed Chandler P. Anderson, who has filled that position since the death of Henry M. Hoyt, for whom the office was created.

This will be the third time Mr. Moore has entered the service of the state department, where he has at various times filled the position of law clerk, the third assistant secretary and assistant secretary under both Democratic and Republican administrations.

Certain considerations are considered to be attached to Professor Moore's acceptance of the post, such as an understanding that he will be designated as acting secretary in the absence of Secretary Bryan and also that an effort will be made to have congress increase the salary of the position, now fixed at \$7,500.

Agricultural Commission Appointed.

The president appointed Senators Fletcher of Florida and Gore of Oklahoma, Representative Moss of Indiana, Colonel Harvey Jordan of Georgia, Dr. John Lee Coulter of Minnesota, Dr. Kenyon L. Butterfield and Clarence J. Owen of Maryland members of the commission authorized in the last agricultural appropriation bill to co-operate with the American commission assembled under the auspices of the Southern Commercial congress to study in European countries co-operative rural credit unions and similar organizations devoted to the betterment of rural conditions. The same men also have been designated delegates to the general assembly of the International Institute of Agriculture in Rome next August.

McAdoo Refuses to See Applicants.

The first sequel to President Wilson's determination to refer office seekers to members of his cabinet came when Secretary McAdoo announced that he was compelled to decline to receive personal applications for office.

"I have tried it for ten days," the secretary said, "and I find that it leaves me no chance to attend to important house business and, besides, is absolutely futile. None but a superman could remember at the end of a day everyone who has poured a story into his ears.

"While I fully appreciate and sympathize with the very natural and proper desire of those who are seeking places, nevertheless it should be made clear to them that nothing is to be gained by haste. Ample time is going to be taken to consider all applications. They should be made in writing. They will be filed and receive much more careful consideration than if presented in person."

WHAT SAVED HER LIFE

Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.

Rivesville, W. Va.—Mrs. Dora Martin, in a letter from Rivesville, writes: "For three years, I suffered with wretchedly troubles, and had pains in my back and side. I was nervous and could not sleep at night.

The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui.

Now, I am entirely well.

I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends.

For fifty years, Cardui has been relieving pain and distress caused by wretchedly trouble. It will surely help you.

It goes to the spot—reaches the trouble—relieves the symptoms, and drives away the cause.

If you suffer from any symptoms of wretchedly trouble, take Cardui. Your druggist sells and recommends it. Get a bottle from him today.

TO RENTERS OF FARMS

Why Pay Rent to Land Owners? You Can Buy Land or Us on Crop Payment Plan. We have Railroad Lands on the Above Plan.

We sell these lands on the Crop Payment plan at from \$25.00 to \$35.00 per acre. No mortgage, no notes, no interest to pay. All you have to do is get a deed for your land, break the sod and go to producing crops. Climate and soil the same as in Nodaway county. Lands produce the same kind of crops as Nodaway, the same fruits and the same water. The soil is a dark loam from 18 inches to three feet deep and produces the crops, is not an experiment but tested for years.

THE RAILROAD wants settlers and not fancy prices for land. Come and see us, let us tell you of this great opportunity and quit paying rent to others, but pay it to yourself and in a short time own a farm that will be worth three times as much as we ask for this land. It has been done before, why not again?

If you have a farm here let us sell it for you and go to this new country where you can buy land that will double in value in a few years.
